## Estimating Buoyancy

1. Create a boat from a piece of foil.
2. Estimate how many marbles (or other like objects) your boat can hold and stay afloat. Record your estimate on the table below.
3. Add marbles one at a time until the boat sinks.
4. Record your results on the table.
5. Redesign your boat and repeat the experiment!

| Draw your Boat | Estimated number of <br> marbles | Actual number of <br> marbles |
| :---: | :---: | :---: |
|  |  |  |
|  |  |  |
|  |  |  |
